EXECUTIVE OFFICE OF THE PRESIDENT  
 OFFICE OF DEFENSE MOBILIZATION  
 WASHINGTON 25, D. C.

July 18, 1955

Honorable Allen W. Dulles  
 Director  
 Central Intelligence Agency  
 Washington, D. C.

Dear Mr. Dulles:

This will refer to your letter dated May 10, 1955 and the subsequent presentation by your [redacted] relating to the scope of your Central Radio Frequency Usage File. We have had subsequent conversations with your staff on the subject and are impressed with the efficiency of the operation.

25X1

We are particularly interested in the availability of these files to all Federal Government agencies, including ourselves and the Interdepartment Radio Advisory Committee, when such information is necessary in developing a national position for use at international conferences, reviewing basic radio allocations, resolving questions of radio spectrum management, and so forth.

While it is axiomatic that a current product derived from controlled radio monitoring cannot be replaced by the type of records that any historical usage file provides, we are of the opinion that the information contained in your usage file is a necessary adjunct to current and controlled monitoring data. This is particularly true if the usage records are complete and reflect information concerning United States domestic and overseas operations as well as foreign transmissions which are so inter-related that the impacts, both technical and political, must receive careful consideration. In view of this premise it is our belief that the mission of your file should be broadened to permit accession of United States domestic and overseas frequency usage information.

We would like an expression of your feelings in this matter and your assurance that these files will be available as necessary.

Sincerely yours,

*Harold M. Botkin*

We wish to express our appreciation for the opportunity extended to Messrs. Loeber, Obermiller and Plummer of this office on March 28, 1955 to visit your [redacted] for the purpose of inspecting the radio monitoring records.
